US A NEW BEGINNING

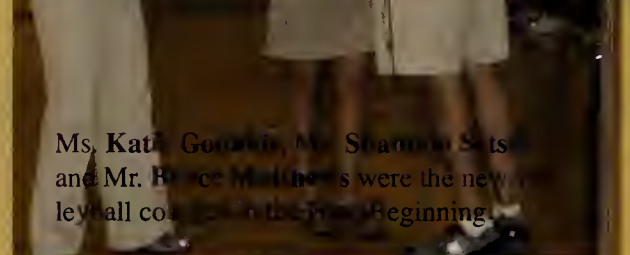

Fall

2004 saw a new beginning for the Euclid School System. Old middle schools were reopened due to the crowding at the existing schools. More important, however, was the tremendous transformation that took place at Euclid High School. The transformation process that had begun several years earlier was being implemented. Because of a grant from Bill Gates and the small schools initiative, Euclid High School became six smaller schools known as *The Professional Path*, *The Euclid Academy of the Arts*, *The School of Science, Technology, Engineering and Math*, *The Academy of Intellectual & Interpersonal Development*, *The International Academy For Accelerated Achievement* and *The Business & Communications School*. The driving force for the reorganization was the poor scores that Euclid students received on the proficiency tests which put the school in the academic watch category. The reasoning behind the smaller schools was that with smaller schools, students could get to know each other and their teachers better and be able to develop better study habits. At the beginning of the year there were many scheduling and logistical problems that had to be worked out. The year definitely led to A New Beginning.

Classes began the same as every other year but the students were grouped into smaller schools since this was a New Beginning.

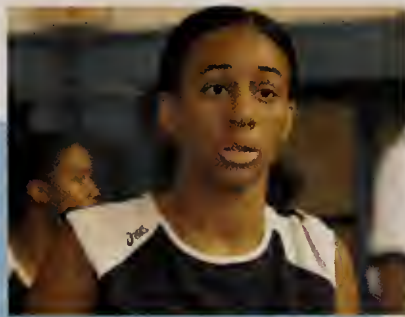

Erika Skovira, Emily Lawrence, Karen Connavino and Yuri Doolan laugh at the jokes that Jessica Vandegrift told them about the New Beginning.

STUDENT LIFE DIVIDER

Members of the Marching Band enjoy their student life.

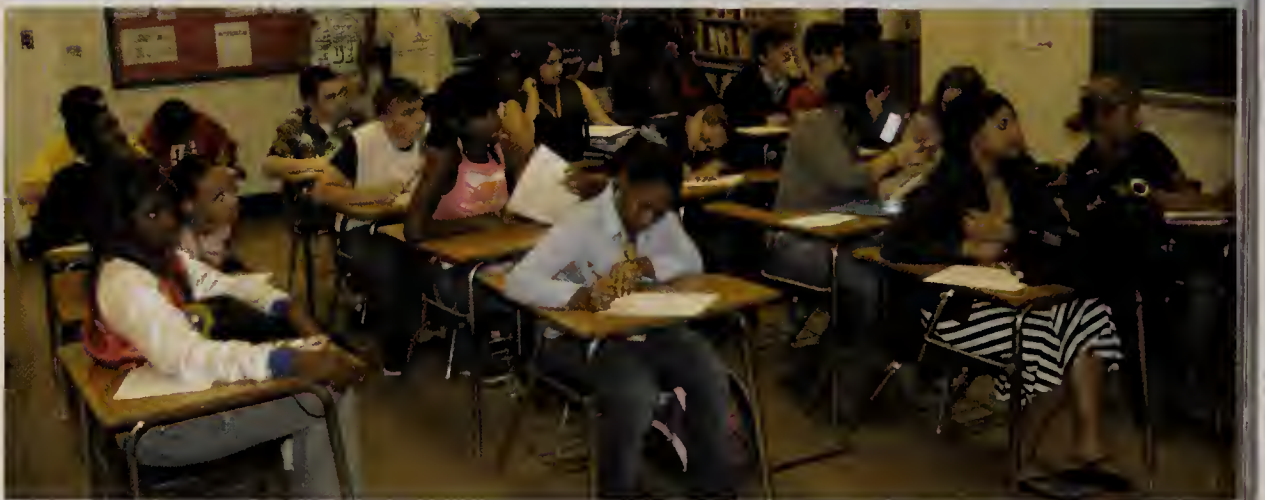

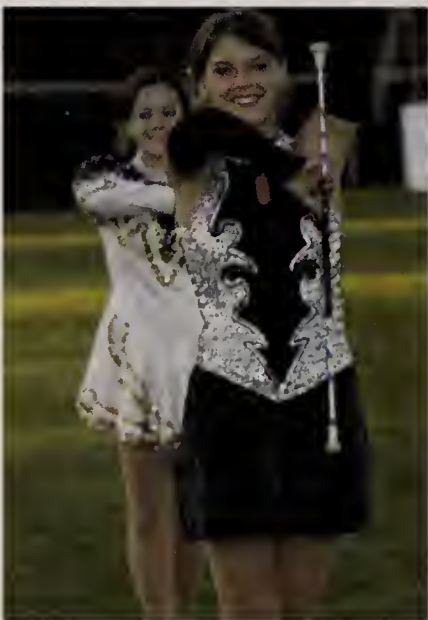

Student

life in 2004-05 was slightly different from previous years. Instead of living in one large school, life now existed in six smaller schools. This did not amount to much of a difference since sports, clubs and lunches were still all part of one large school. The fact that classes were more confined to a more generalized location in the building lead to small changes as far as student life was concerned. Life at Euclid High Schools was still going on pretty much as it had been going on for the past fifty-five years.

Felicia West jumps for joy as she thinks about all the student life she has in the Euclid schools.

Many students improve their students life by participating in activities such as the Survey.

Jessica Spring enjoyed her life as Head Major-ette on the football field.

The boys and girls on the cross country team did much to improve their student life by running around after school to keep in shape. Sometimes the weather was nice but sometimes it rained and running was not as pleasant.

Far Left: Some members of the football team enjoy their life on and off the football field.
Left: **Robbie Vazquez** has a meaningful student on the soccer field and in the band.

Nick Mavar kicks the soccer ball, **Daniqua Dothard** goes up for a spike, Varsity Chorale gets ready to sing before a football game and the cheerleaders enjoying their student life.

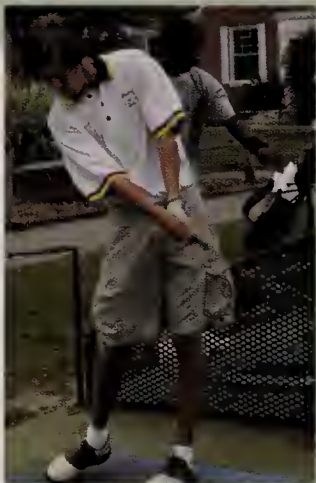

Allie Montague gets her kicks on the soccer field while **Tom Bowser** learns some golf pointers from golf coach, Mr. **Robert Torrelli**. **Chad Richardson** and **Pat Edmonds** enjoyed hearing Euclid's great running back, **Robert Smith**, talk about his book. The mediators learn about controlling situations.

WHAT'S GOING ON AT E

Life at Euclid High Schools could be a rich experience if a student took advantage of everything that was offered. There were many organizations that a student could join and many activities took place before, during and after school hours. A person could easily find something to do.

Members of the Marching Band were a big part of Student Life.

WHAT'S GOING ON AT E

The transformation did not do anything to change the lives of most of the students at the Euclid schools. Students still went to their classes, participated in sports and extracurricular activities. There was still Homecoming and Student Council still organized it. The students still participated in all the activities that made up their lives at Euclid High Schools.

BRINGING BACK OLD FRIENDS

Homecoming was a fun time for former and present students

Homecoming 2004 was a new beginning for many students who came back to see their former school. The festivities began on Monday, October 11 which was 'jersey day'. Wednesday was 'hat day' and Friday was the traditional 'blue and gold day'. Many students participated in the theme days by wearing the appropriate clothing. On Thursday the students voted for their choice for Homecoming King and Queen and Duke and Duchess and Attendant. On Friday evening the traditional Homecoming game was played. The opponent was Lorain Admiral King and Euclid prevailed by a 36-0 score on a rainy, windy and cold evening. Rain has become a tradition since it has rained on the Homecoming game for the past three years. The rain was a problem for Admiral King since they fumbled numerous times throughout the game. Before the game, the Homecoming candidates were introduced to the fans and the winners were announced at half time. **Bianca Gonzalez** won as Queen, **Matt Hongosh** was the King, **Courtney Rought** was the Duchess, **Demar Sheffey** was the Duke and **Heidi Walker** was the Attendant. Fireworks followed the announcing of the queen and court. Everyone had a fun time in spite of the weather.

The coaches talked to the players after they came off the field to explain how to play against the opponent's defense.

The players ran through the sign that the cheerleaders made for them. The rain made the field slippery and the sign wet.

LOVE IS IN THE AIR

Homecoming 2004 was a huge success

The Homecoming Dance for 2004 was an overwhelming success as witnessed by the fact that it was sold out. 750 tickets were sold for the event which occurred on Saturday, October 16 from 8:00 to 11:00 p.m. in the E-room. *Love is in the Air* was the theme and the E-room was decorated with lots of balloons. After checking in students could have their picture taken or get out on the dance floor. Refreshments consisted of the usual punch and cookies and brownies. Lots of students took lots of pictures and everyone was well behaved and had a good time. It was an enjoyable experience for everyone involved.

-Emily Proctor

Homecoming Queen, Bianca Gonzalez and Ceasar Lopez had a good time at the dance.

The doors were jammed with all the students coming into the dance.

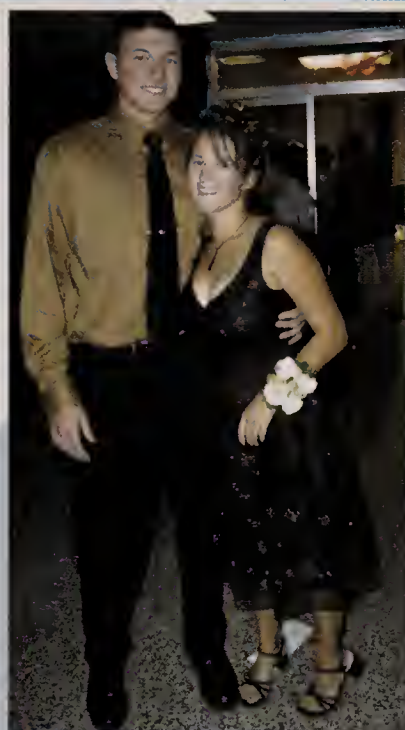

Alonzo Woodruff, Vivian Lopez, Matt Porter, Nikki Lewis, Matt Kulbis, Alexandria Perdan, Andrew Ramey, Lisa Murray, Brittaney Roberts, Reuel Chapman, Dominique Steiner, LaPorscha Jones, Ashley Rodgers, Linda Berry, Dezarae Griffie, Kyle Strodtbeck and Damea Brandon lit up the E-room with their smile and good personalities.

SENIOR DIVIDER

The seniors certainly saw a new beginning. They entered Euclid High School as freshmen but graduated from one of six smaller schools. There was only a minimum impact for them since they were seniors when the transformation took place and most of their time at Euclid was behind them. The seniors were still the important class since it contained most of the students who did the work to make many of the activities at Euclid take place. The senior class was still the class that made things happen.

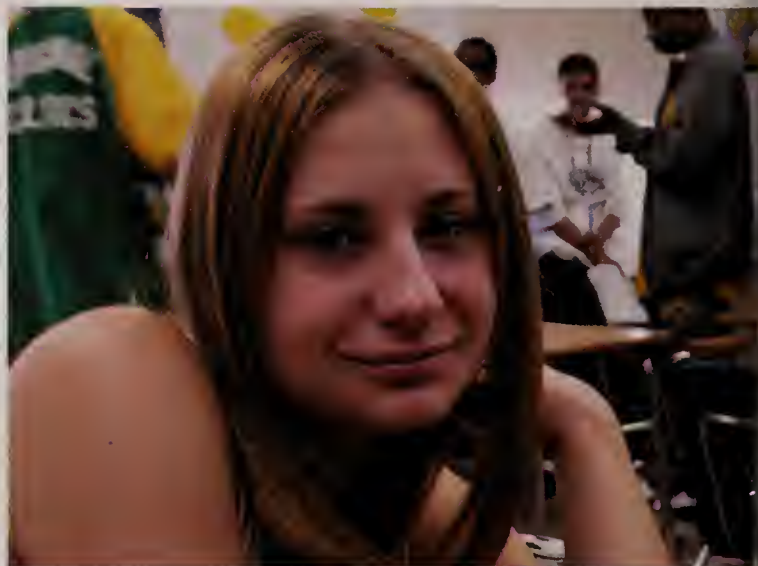

Shelly Struna looks carefully at her proofs in order to find some good pictures while **Katie Carter** works in the background.

Alyssa Kodramaz is trying to learn about being a senior from her friend **Amanda Sufka**. Both of them are very involved in sports and participate in Euclid activities.

Brianna Strong looks optimistic about her future as a senior,

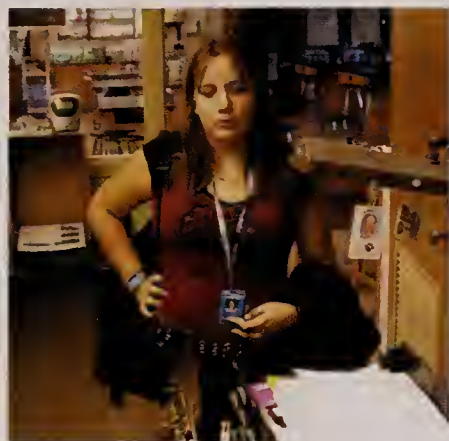

Monica Habat is thinking about all the fun and exciting things that she will be doing as a senior.

Julie Didomenico has a good time being a senior but **Andrew Jurcak** can't get used to the spotlight.

Chevis Whittaker hoping that what he learns during his senior year will help him in later life.

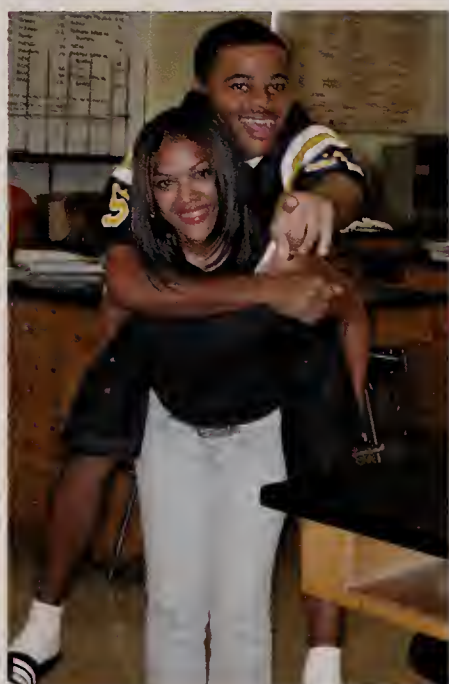

Megan Ammon and her parents were introduced to the fans during Senior Parents' Night during the Brush football game.

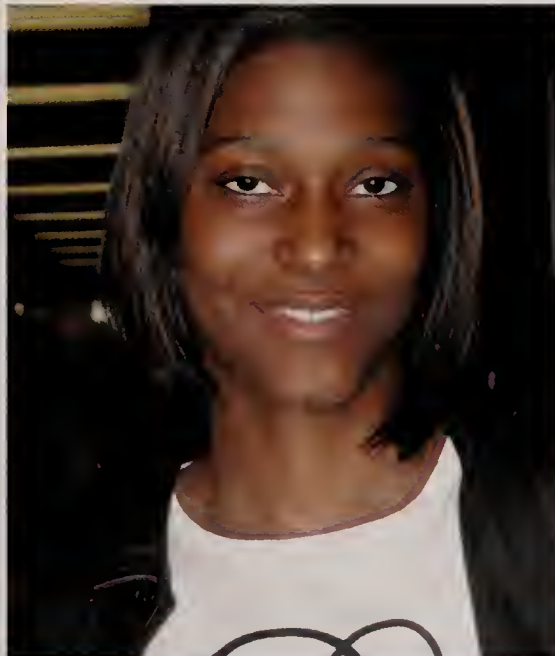

Rebecca Christopher and **Jackie Janda** both seem to be waiting for something interesting to happen during their senior year.

Alonzo Woodruff is thinking about his senior year but Mrs. Russo's daughter has a few years to go before she has to worry about her senior year.

Far Left: **Anthony Jackson** gets ready to go to his classes since he only has one more year to go before he graduates. Left: **Megan Gonzalez** gives **Chad Richardson** a lift to help him through his classwork.

Far Left: **Rico Duncan** and **Bernard Cole** know that in order to succeed in the modern age they must be able to use computers. Left: **Daniqua Dothard** is active in volleyball and basketball and participates in seniors activities.

SENIORS

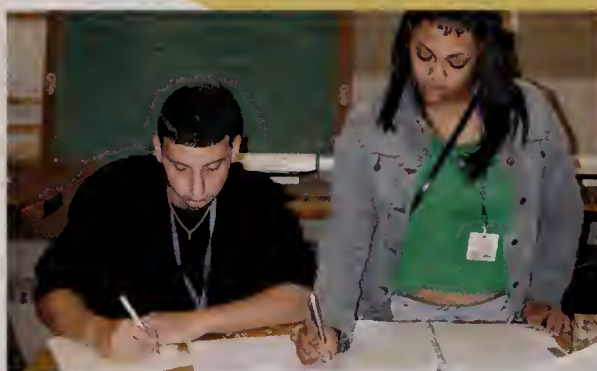

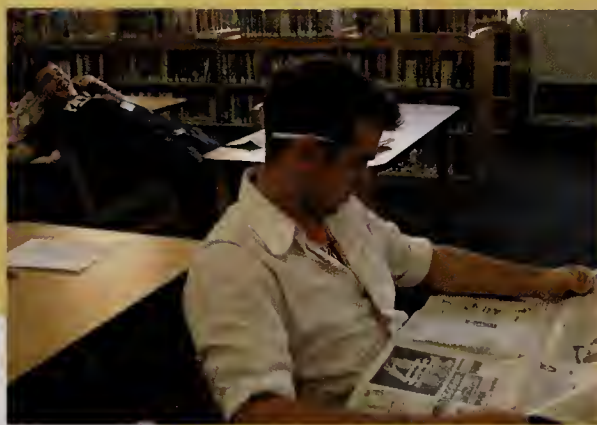

It was a time every student was waiting for, to be a senior. It was a once in a lifetime experience. It was a very challenging year and it was not the time to play. Seniors looked forward to leaving Euclid High Schools and going off to better things, but most would miss EHS. If you were serious about taking care of your business, it would be your best year. It was good to see friends you grew up with and shared the high school experience with mature and get ready to go out on their own. Friends shared many happy and sad experiences as they moved through their high school years and approached graduation. It was a very serious year and some important decisions had to be made about the future. Seniors could enjoy the year but had to remember to not let time creep up on them and to lose what they had attained. Everyone had dreams about what they wished for the future, but they had to work in order to attain those dreams. The senior year was one that would be remembered for the rest of their lives.

-Chamere Davis

Mike Ross knows that there is a lot of good information contained in every edition of the newspaper. Kindria Lake knows that she must work hard in class to earn good grades. Stacy Piotrkowski and Cheryl Novak are good friends that will stay in touch with each other throughout their lives.

Talking about getting your life turned around. Allie Montague went to great lengths to view her senior year as a new beginning for the rest of her life. Bekkah Christopher helped her with her keep everything upright.

Rebekah Christopher rushes for a good gain around the right side of the line.

All girls at Euclid High Schools came together on November 3, 2004 to participate in the annual Powder Puff Football game. The girls were divided into two teams, Blue and Gold and were each coached by 3 seniors from the varsity football team. The Gold team was coached by Rico Duncan, Scott Sattler and Sean Paythress while the Blue team was coached by Micah Coleman, Patrick Edmonds and Roosevelt Collins. The girls only had two Sunday practices to work on their plays. The game was played on a cool but calm and dry evening. There was a lot of action on the field and a lot of competition coming from both teams. Makita Duncan and Stephanie Tartaglione, both from the Gold team dominated the field and scored several touchdowns in a 36-6 Gold victory. Everyone had a lot of fun and put forward their best effort in the game.

SPORTS DIVIDER

The change to six smaller schools had no effect on the sports program for Euclid High Schools. There was only one of each of the previously existing teams so life in the sports area was unchanged in comparison with previous years. Mr. **Tom Banc** was still the athletic director and all the programs continued as they had in the past. Freshmen still had their sports and upperclassmen still had junior varsity and varsity levels of the sports if there was enough interest for the formation of the both levels.

Jamall Javey comes around the right side of the line for a good gain against Strongville.

Right: Seniors on the soccer team, **Julie Didomenico, Rebecca Christopher, Stephanie Tartaglione, Allie Montague** and **Ann Sivert**, got together to show their spirit.

Far Right: **Micah Coleman** runs for a good gain around the left end.

Right: The offense gets ready to try another play. Far Right: After the defense comes off the field the coaches talk to them to tell them how to improve their playing.

Nick Fortunato practices his golf swing by driving balls off the practice tee. Nick was one of the best golfers on the team.

Maggie Carney, Katie Maxwell and Danielle Edwards watch the action occurring on the volleyball court.

"Wanna see my leg?" **Stephanie Tartaglione** shows off the leg that got cut during one of her soccer matches.

Jackie Zigman watches as **Daniqua Dothard** goes up to spike the ball over the net.

Robbie Vazquez loves to move the ball around on the soccer field.

Below: **Ben Perpar** drops back to attempt a pass.

Ashley Amoss enjoyed her time spent with the tennis team.

NOT VERY OFFENSIVE

Varsity football had trouble scoring point

The football season began long before any player set foot onto the field in the fall. Off-season conditioning began five months before the first game and consisted of running and weight lifting and getting to know the other players. There was a week of summer practice in June where the players worked out and began going over plays. In August they began the two-a-days which was hard hitting and conditioning to get ready for the season. They scrimmaged Brunswick and then began the season at Lake Catholic with a 6-21 loss. This was followed by a loss to Strongsville before finally beating Brush. The high point of the season was a 3-0 win over VASJ in the last game that Euclid would play VASJ. After that the panthers only managed to win one of their last six games and finished the season with an overall record of 3-7 and 1-4 in the L.E.L.

One of the brightest points of the Euclid team was **Thaddeus Gibson** who made *The News Herald* Division I First Team Defense. He had 40 solo tackles, 17 tackles for losses, 12 sacks and 16 quarterback hurries. **Chris Parrish** and **Rico Duncan** also won First Team Defense. **Da'Von Wilson** and **Joe Boyd** were awarded a Special Mention while **Dwayne Gantt**, **Roosevelt Collins**, **Rayshawn Newell**, **Ramone Cloud**, **Darius Smith** and **Donte Wallace** made Honorable Mention.

LOTS OF LOVE

Girls' tennis was almost shut out for the season

Who

says you
have to
win to be

a winner? The L.E.L., that's who. The girls tennis team finished the season with a 1-13 record. The coaches were Mr. Peter Swope and Mr. Mark Walsh from Forest Park. There were a lot of new people on the 2004 team. Seniors **Linda Berry** and **Mia Brantley** often rotated between first and second singles, while **Cierra Medley** often played doubles. **Linda Berry** and **Mia Brantley** were the captains of the varsity team and helped lead the team to a positive experience for most of the newcomers to the team. The season began in late July when the girls began practicing and learning the game at Memorial tennis courts. The girls worked hard together and enjoyed the season despite their losing record.

STROKING FOR LOW SCORES

Golfers worked hard to improve their game

The

2004 Golf Team consisted of many individuals who worked hard to improve their scores as much as possible. They worked together and in the process were able to help each other become a better golfer. **Nick Fortunato** consistently had the lowest scores for the team and made it to the Sectionals. The coaches, **Mr. Robert Torrelli** and **Mr. Greg Baca**, taught the players the fundamentals of the game and the important knowledge necessary to improve their game. Since most of the players were underclassmen the hopes for the future looked good.

DIG OR DIE

Volleyballers had a hard time competing with the other team

The volleyball team had a new coaching staff to begin the year but that did not make up for a loss in talent from the previous year and they finished the season with an overall record of 7-16 and 4-6 in the L.E.L. which put them in fourth place in the league. The girls worked hard throughout the year but they made a lot of mistakes on the court which led to their losses. They just did not have the consistency that was needed to win. The new coaches were Mr. Bruce Matthews and Ms. Shannon Setser.

KICKING THEM AROUND

Boys' soccer played well together and had a winning season

The boys' soccer team was the only Euclid Fall sport that finished the season with a winning record. They finished the season with an overall record of 10-1 and 4-4 in the L.E.L. They made it to the second round of the playoffs. **Dan Zudic** and **Robert Vazquez** were the team captains and led the members throughout the season. Everyone worked hard and had a lot of time on the playing field. They were in a position where many players were able to score and not just a select few. They were coached by Mr. **John Gibbons** and Mr. **Humberto Riselli** who felt that the team held great promise for the future since many of the starters were sophomores and juniors.

The

2004 girls' soccer team had a tough season and finished with an overall record of 3-12-2 and an L.E.L. record of 1-5 which put them in sixth place in the L.E.L. The girls did not have the talent that they had in past years and some members of the team suffered injuries which caused them to miss games. DOING THE LONG

Talk

about a lonely sport and cross country came to mind. During practice the runners would move in groups but during a race it was each person for themselves and they had to contend with a self imposed discipline to get into a pace and to keep on going. Cross country did not have the glamour of football or basketball. The only spectators were usually just the parents of the runners and there was no cheering to keep the participants going. The members of the boys and girls cross country teams worked hard to improve their times throughout the season in a sport that was more personal than most of the others. Both teams suffered from a lack of depth and talent. One bright spot for the girls was junior, Cherice May, who placed first or second in most of the races that she participated in. She placed seventh in the Regional meet and 41st at the State Meet in Columbus. The boys team was coached by Mr. Al Benz and the girls team was coached by Ms. Karen Ganford and Ms. Julie Newsome.

IMPROVED SEASON

Talented boys team has a winning season

Head Coach, Sean

O'Toole was feeling better after the 2004-2005 boys' basketball season finished above .500 for the first time in four years. After going 4-18 two years ago and 10-10 last year it was nice to be back in the winning column with a 12-8 record. The team played some really tough teams and were close even in their losses. The team was led by **Desmond Motley** who averaged about 20 points per game and hustled and helped the team. **Thaddeus Gibson** was another force on the court with his rebounding ability. Other players contributing to the effort were **Deonte James**, **AJ Croone-Cain**, **John Dickenson**, **Cedric Perry**, **Marcus Benedict**, **Bryant Johnson**, **Hayden Lewis** and **Devon Jennings**. The team did not have the long shooter but could get the ball to the open man inside. It was a fun season for all involved.

HIT BY INJURIES

Girls basketball lost several starters to injuries

The

Euclid Girls' Basketball Team began the season with high expectations. They had many returning players from the successful 2003-2004 team. The season began well but when **Daniqua Dothard** suffered a torn ACL and **Mikita Duncan** sprained her ankle the hopes for the team diminished with the loss of the two starters. This caused them to finish off the season with a 12-8 record which was not as good as the previous year. The team played hard throughout the season but couldn't make up for the loss. The team consisted of **Jazmine Bell**, **Erika Brown**, **Ciara Hurn**, **Courtney Royster**, **Latoya Davis**, **Jessica Beard**, **D'Angela Lavender**, **Jackie Hurst** and **Sirena Hardimon**. The team was coached by Mrs. Lynn Phillips and Rashaad Wilson.

WRESTLING FOR BETTER RESULTS

Wrestling team showed improvement but still needed more participation

Under the coaching of

Mr. Joey Tucceri the Euclid wrestling team has showed improvement throughout the years. They have been able to compete well in the different tournaments that they participated in throughout the season and have been the home of some good wrestling. With wrestlers like Reggie Bathurst, Shaun Paythress, Tim Jones, Nick Tyree, Donte Wallace and Ryan Oddo, the panthers were able to do very well in some tournaments. The main problem, however, was the lack of good wrestlers in all the weight classes. There were lots of good matches that were wrestled throughout the season and they were an exciting team to watch.

INJURED

Hockey team suffered many injuries and couldn't compete w

The

2004-2005 hockey season was an uphill struggle for the Euclid Panthers who suffered from injuries and a small turnout as far as players were concerned. The team had a lot of experience and determination but that was not enough to make up for the lack of bodies that they could put on the ice. The team was coached by Mr. Tony Verch who did his best with what he had.

ACTIVITIES DIVIDER

Get involved! That was the secret of having a successful high school career. Get involved in sports, get involved in activities and get involved with nice people. There were lots of different ways that students at Euclid High Schools could get involved. The transformation to six smaller schools had no influence on the activities that were available to the students. Any student could participate in any of the clubs and activities that were functioning. If a student wanted to do something there was an activity that would accommodate them.

CHORAL CONCERT

Choral Masters presented their annual Holiday Concert

Choral Masters was a superior choral group at Euclid High School. They met every day during the seventh period. They spent a small time every day sight reading music and learning a small amount of music theory. During the rest of the time they learned and practiced some of the hardest high school pieces available. They attended the LEL choral festival every year and performed a winter and spring show in the auditorium. In every show they performed, they showcased their outstanding harmony and talent.

CHANGING ATTITUDES ABOUT HISTORY

Fall Play explored different people's beliefs about the Holocaust

Fall

Play, 2004 was *Anne Frank and Me*, performed by the Drama Club. *Anne Frank and Me* was written by Cherie Bennet and performed on November 18, 19 and 20 in the Little Theater. The play was about a girl named Nicole Burns (**Liza Langdon**), who's school assignment was to read *The Diary of Anne Frank*. She went through the normal trials and tribulations that most teenagers went through in their lives at the beginning of the play. At a school dance she had her heart broken and ended up getting hit in the head by a car when she tried to run away. She wakes up only to find herself in Paris, France in 1942, right in the middle of the Holocaust. She went through the experiences that the people of that time had. She met Anne Frank (**Cathy Smedley**) during her dream and ended up in a gas chamber when she then woke up with her friends and family. Her attitude about history changed greatly because of her experience. The play was directed by Mr. **Greg Baca** and Ms. **Trisha Tinney** and **Rachel Perovsek** and **Zachary Svoboda** did the technical production.

PLANNING THE EVENTS

Student Council organizes the year's activities

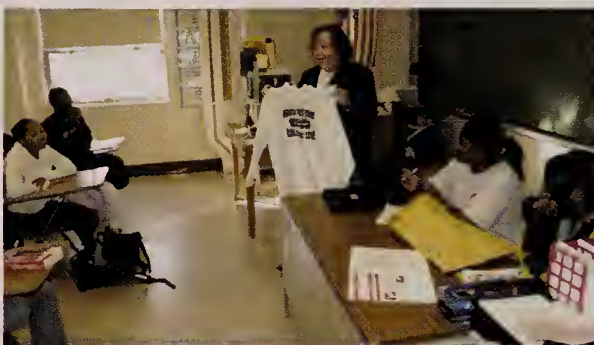

The Student Council was the organization that planned most of the student events that occurred through the year. The first major event of the year was Homecoming which began with Homecoming spirit week before the Homecoming football game on Friday and then the Homecoming Dance on Saturday which was attended by 700 students. They organized the Winterfest dance which was held at the end of January, the blood drives, the student-faculty basketball game and many other smaller fund raisers through the year. Mrs. Anne Obradovich and Mrs. Michelle Pettit were the new advisers for the Student Council.

HELPING AROUND THE OFFICE

Office Aides and Clinic Aides allow the school to run smoothly.

Lots of students enjoyed helping out in the different offices. Whether they worked in the small schools offices or in the clinic the students were a valuable asset to the schools. They filed papers, delivered call slips to the students throughout the school, ran errands for the secretaries and counselors and did whatever was necessary to keep the school running smoothly. It was a good experience for the students and a valuable asset for the offices.

PREPARING FOR THE MILITARY

NJROTC prepares students to enter into the armed services

The

NJROTC was a program that allowed students to learn about and get a taste of military life. Students learned to march and coordinate their movements. They were also able to join teams such as marksmanship, IDR (Individual Drill Routine) and many others. Throughout the year they competed in several drill and rifle meets against other schools. Also, they supplied a color guard for all of Euclid's home football games and for many assemblies. Cadets in their senior year were able to continue the ROTC program in college or go straight into the military if they chose to do so. The instructors for the group were CDR. William Gray and SGTMAJ. Larry M. Isaacs.

Wanna

take
a

Caribbean cruise? If you didn't have the time or money to do so at least you could have gone to the annual Winterfest Dance held in the E-room on Saturday, January 29, 2005. The theme of the dance was Caribbean Nights and 150 students assembled in the E-room and enjoyed the music and refreshments that were provided for them. The cost was only \$15 if they went alone and \$30 if a couple attended. The room was decorated with lots of helium balloons and posters. Participants could have their pictures taken professionally, but there were lots of students with cameras taking pictures. It was an enjoyable time for all who attended.

As the students arrived they had to check in at the registration desk.

PERFORMING BY DANCING

Drill and Dance teams performed at basketball game

The

Drill Team was a group of 35-40 students

who practiced after school by learning steps which were then formatted into a routine that they performed at basketball games during half time. They also performed in competitions and shows such as the Delta Show at Akron University on October 28, 2004. The purpose of the Drill Team was to work the crowd up for the games. Mrs. Marketa President and Ms. Percy were the advisers for the group. Members of the Drill Team were: Marchae Jackson, Ashley Morgan, Jasmine Henderson, Janee' Carter, Athina Weems, Lindsey Beasley, Tiffany Johnston, Josalynn Gibson, Jsmin Gibson, Tiayra Matthews, Martina Ernest, Alfreda Anthony, Porsha Reeder, Martina Chatman, Lariea Wysinger, Keyona Johnson, Tanisha Black, Jeruna Jackson, Stefanie Philpott, Dominique Stiner, Unique East, Jazmyn Terry, Brittany Barker, Keyana Gaston, Quiana Rivers, Amber Howard, Rachel Willingham, Dezarae Griffie.

KEEPING THE AUTOMOBILES RUNNING

Vocational Automotives helps students learn about car repair

The Vocational Automotive program gave students a chance to prepare for a life of repairing automobiles. Everybody had a car and it took a lot of people to keep all those cars in good running order. There was a good demand for auto repair people who knew what was going on. The program gave students an opportunity to begin learning the basics of car repair so they could go to post secondary schools to get certified and get a good job. There was a junior and a senior class, each lasting three periods. The class was taught by Mr. Anthony Rozman.

KEEPING THE COMPUTERS TALKING

CISCO teaches students how to network computers

CISCO: Melissa Paoloni, Jennifer Walker, Joe Humenuik, John Polter, Ryan Kolesar, Karl Morris, Andrew Mumford.

Students in the CISCO class learned how to network computers together so they could communicate with each other. They spent a lot of time in front of their monitors.

CISCO

Networking Technology was one of the computer vocationals offered at Euclid. Its curriculum focused on preparing students for a future in computer networking. It was a 2-year program that offered to help any student who wanted to get CISCO certified. The first year CISCO students, who were usually juniors, had the class the first three periods of the day. The second year students took it the last three periods. After taking CISCO, students could carry on their education in computer networking and receive many other certifications in the field. Mr. Roy Pignatiello was the CISCO teacher here at Euclid. This year though, Mr. Pignatiello was not able to teach the first semester due to a motorcycle accident he was involved in. He made it back for the second semester. CISCO was a great program to get involved in. It helped to establish a foundation in a student's future.

They also participated in the holiday activities at the Lake Farm Par. They baby sat children at the Children's Hospital and helped tutor kids at Fred's Club. They gave without expecting to receive. The club built character in it's members and everyone had respect for them. **Anna Sudar** was President, **Sean Walker** was vice President, **Kevin Kope** secretary and **Ananais Aden-Swoop** was the treasurer.

GET PUBLISHED

Eucuyo gives students a chance to get their created works in print

Did you like to create original poetry, drawings, art or prose? Did you want to share it with others? Well, if you did, the Eucuyo was for you. Students submitted original works to the members who read them over and decided if they were good enough to appear in the magazine. The accepted ones were assembled into a magazine which was then published for anyone who wanted one to buy. Ms. Tracy Wienhold and Mrs. Edie Mellen were the advisers for the group.

Chris Messina, Dan Thome and Logan Smith were important members of the Eucuyo staff and they had to look through all the material that was submitted to pick out what was usable.

There were lots of discussions and arguments about which works should be included

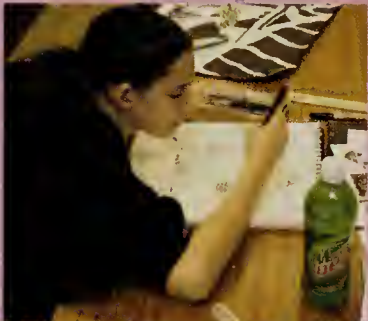

Once the work was selected it had to be entered into the computer by typig or scanning so it could be layed out in pages.

THERE'S AN ART TO IT

Commercial Art enables students to develop their portfolio

The Commercial Art program was a program that enabled students who were interested in art to pursue requirements for their career. Students met with Mrs. Edie Mellen for three periods in which they learned the different techniques that were necessary to develop their artistic talents. Their work became part of their portfolio that would be presented at job interviews or post secondary school applications.

Taught by Mr. Nick Selvaggio, the students learned all about the rules and regulations that were necessary to go into the field. They received many hours of hands-on training where they learned the skills necessary to be successful in the world of law enforcement.

Mediators learn how to defuse tense situations

Ever

had trouble with another student?

Ever had trouble getting along with someone else? Ever been in a tense situation with another person? Maybe you needed mediation. The Mediators were a group of students who were trained to help eliminate conflicts between students. They attended many workshops where they learned the skills necessary to help calm down tense situations. If students in conflict agreed to mediation they would tell their story to the mediators who would then recommend solutions. Teenagers were faced with many conflicts as they went through their lives. Mediation tried to minimize the problems as much as possible. Ms. Kathleen Mc Donnell was the instructor for the mediators.

The students had to be trained before they could do any mediation.

REPORTING THE NEWS

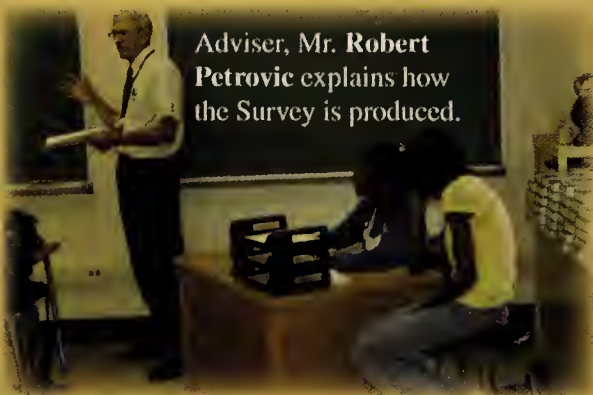

Survey keeps the student body informed of important issues

The Survey was the newspaper that reported the news at Euclid High School. The purpose was to keep the small schools informed about upcoming events and to allow the student's voice to be heard. The members met before each deadline to decide on topics to cover and assign stories. The stories were then entered into the computer to be laid out into the paper. Natalie Sliwa was the Editor-in-chief, Stephanie Maxwell was news editor, Anna Sudar was feature editor and Amy Barwick was assistant editor. Mr. Robert Petrovic was the adviser for the group

Kids

on the Block was a group of students who rehearsed skits using puppets and then toured the elementary and middle schools presenting these skits to the children. The skits dealt with prejudice and how different people are perceived by their peers. It tried to convey the idea that all students were equal and entitled to equal respect by everyone. Mrs. Margaret Nielsen and Mrs. Hoinski were the advisers for the group.

Were you interested in poetry? If so, you should have come to the meetings of the Poetry Club. Members read poetry that they wrote or published poetry. Mrs. **Andrea Gorodea** was the adviser for the group.

JUNIOR CLASS WORKERS

The Junior Class Cabinet met after school in the planetarium with Mrs. **Fran Ratka** and discussed what the junior class could do to better identify themselves. They thought up ways that the class could raise money for their events.

SLIDING AND RIDING

Skiing and snowboarding helps students enjoy the winter

Want

to have
more fun
in the

winter? That's what the members of the Ski and Snowboard Club were able to do. Twenty-four students made trips to Brandywine Ski Area on Thursday evenings to participate in snow activities. Skiing was an expensive sport but the school program was heavily discounted and enabled the participants to enjoy the sport for minimal cost. The members of the club were Chris Adams, Catherine Anderson, Kristina Arko, Meredith Burge, Andrew Collins, Amy Cosmo, Amber Dantzler, Jimmy Dorsey, Joseph Fisher, Chris Mc Kenzie, Megan Mihalich, Merrianna Milroy, Karl Morris, Rachel Perovsek, Joe Pinchot, Erica Ranallo, Justin Simmerer, Renee Skully, Ryan Sotka, Gavin Ursich, Robert Vazquez, Sean Wilford, Holly Yanacek, Daniel Zudic. The adviser for the group is Mr. Bill Von Benken.

MAKING DECISIONS

Senior Class Cabinet helps raise money for the senior class

The Senior Class Cabinet was important in making decisions dealing with the senior class. They looked for different ways to raise money to lower the cost of prom. They arranged all the activities that were necessary to put on the prom. Mrs. **Cathy Gibbons** and Mrs. **Christine Bayliss** were the advisers for the group.

Seniors getting ready to decide what kinds of fund-raising projects they want to participate in.

Mrs. **Christine Bayliss** dispenses refreshments to the seniors who helped out at the meeting.

SAVING THE PLANET

SAVE wants students to learn about conservation

It was important to learn how to recycle and reuse earth's resources. This was the idea of the SAVE (Students Against Violating the Earth). Under the advising of Mr. Matt Young, students collected aluminum cans to recycle. They did their best to help conserve earth's finite resources.

Students met in the fall to learn what projects the club was going to participate in.

Mr. Matt Young is the adviser for the group and he had to show the members what had to be done in order to have a successful year.

SAVING LIVES

SADD wants students to make informed decisions about drugs

Many teenagers made bad decisions when it came to drugs. SADD tried to reverse that trend by educating students to the problems associated with drug use. They strived to make the students aware of the destructive decisions that they sometimes made. Mrs. Andrea Gorodea was the adviser for the group.

Mrs. Andrea Gorodea wants her students to understand the problems of abusing drugs.

USING THE TECHNOLOGY

Audio-Visual technology makes presentations look good

The Media Aides did their best to make all the productions at Euclid schools look professional. They set up the lights for all the shows and ran the cameras that recorded the productions. They repaired the copy machines so that the staff could make all the copies that they needed and keep the school running. They did all the little and big things that were necessary to make life at Euclid High Schools enjoyable. Mr. Allen Black was the person behind the scenes who kept everything running smoothly.

GOOOOOOOD MORNING EUCLID!!!

Morning Announcers get the day off to a good beginning

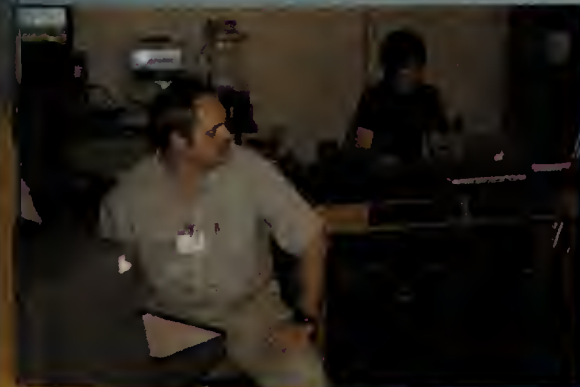

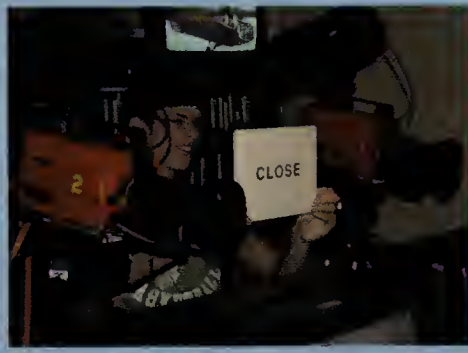

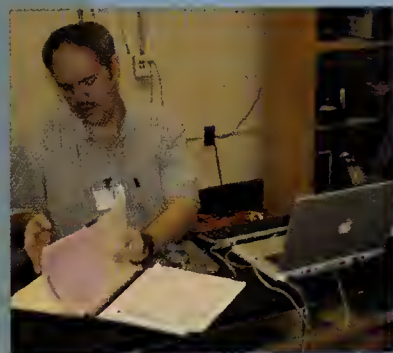

Chris Messina and Dan Thome prepare themselves for the beginning of the morning announcements.

It was important that everyone in the school was made aware of everything that was going on around them every day of the year. This was the job of the morning announcers. Every morning these brave souls got in front of the camera and beamed their messages to all the rooms in the school. Good news and some bad news came through the televisions in all the rooms every morning. It brought the students important information about club meetings, sports scores, bus changes, awards and honors and accomplishments that were important to the students at the Euclid Schools. Mr. Allen Black was the organizer for the group.

Thome, Chris Messina, Patrick Mulholland and Nick Fortunato have a lot of fun keeping the students of Euclid High Schools informed about what is going on around them.

Mr. Allen Black gets the announcements ready while John Kulbis, Matt Kushan and other members of the Media Aides operate the cameras and the computers to get the program to all the homerooms.

EARNING THE DOUGH

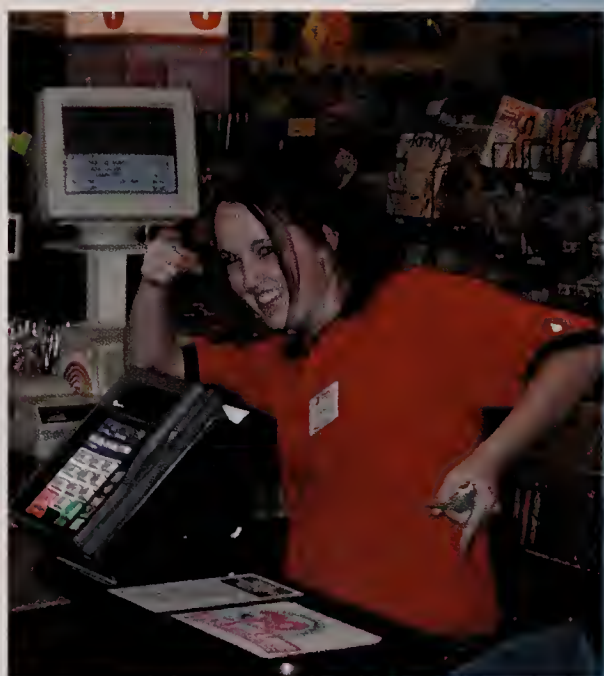

Many students had a job to help them through their financial trouble

Did you have a job? Most Euclid students had a job by the time they got to be seniors and many had one long before becoming a senior. In our society it was accepted that most students would have some sort of a job by the time they were ready to graduate from high school. The benefits of a job was the availability of money that could be spent whenever and where ever the student wished and they got experience in the working world which would be useful in the future. A disadvantage was that didn't have as much time to do all the things that teenagers could do. Some students only spent a couple of hours each week at their job but others spent upwards of 30 to 40 hours a week working. It was hard being a teenager if you were working all the time.

Oscar Black and Lauren Proctor look through the newspaper while Andre Gay has to clean up all the merchandise that fell off the shelves while Octavia Lewis and Tim Krofcheck take control of the counter at Walgreens.

Cory Moore surveys the mess that occurred when a shelf fell over at Marc's, Andre Gay picks up shopping carts, Craig Stigamire will help you find what you need at Dave's Supermarket and Jim Palko scans items at Walgreens.

Dontez Orr makes your Whopper while Alton Garel rings up your order at Burger King. Andrew Mitchell keeps things orderly at Tops and Donny Miller makes sure that there is plenty of stock to sell at Marc's.

Kristen Blondeaux rings your order up at Marc's while Terrence Bolden picks up carts at Giant Eagle and Nyrisha Percy will be happy to sell you a pair of shoes at Sears.

This is what you may be cleaning for the rest of your life if you don't get an education and can get a good job.

KEEPING YOUR STUFF STASHED

A locker is more than just a place to keep belongings

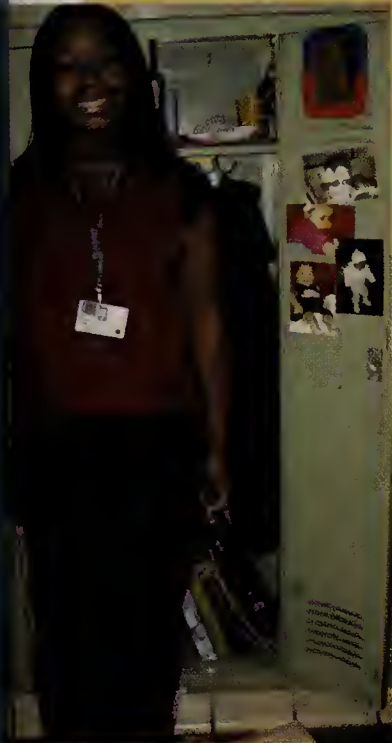

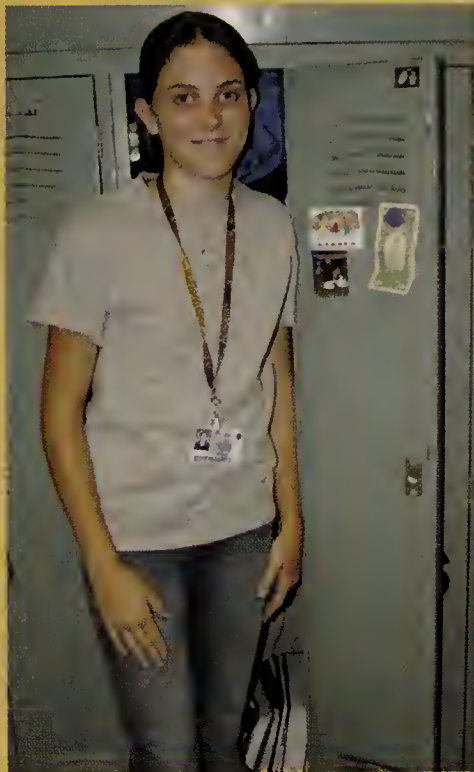

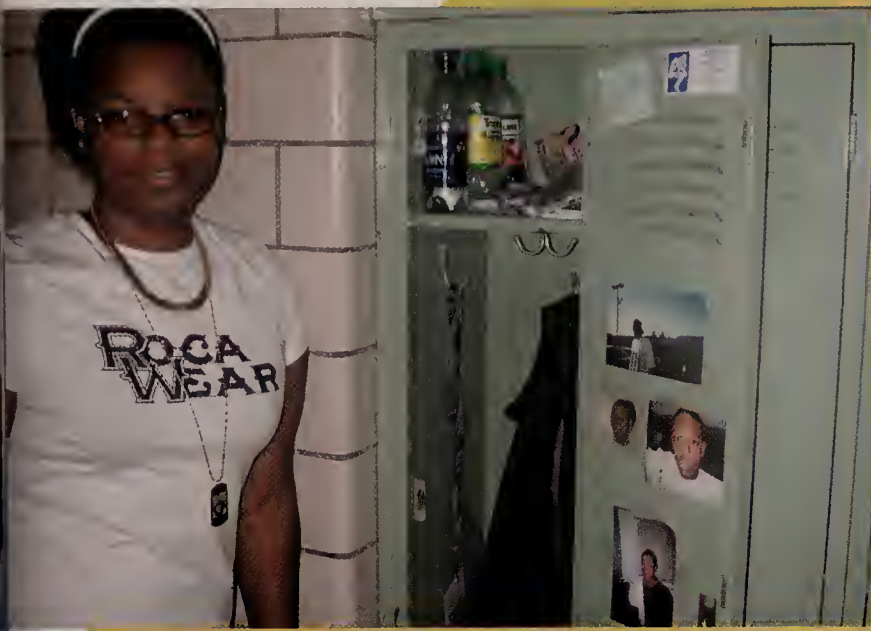

For most students their locker was simply a place to keep their belongings while they were at school. They kept a lock on it and visited it several times a day between their classes. Some students didn't even bother to keep a lock on their locker. Then they wondered what happened when something disappeared. Some students would allow other students to use their locker and wondered why it was so messy and why books and supplies would get mixed up. Other students, however, used their lockers as a means to express themselves to their friends and visitors. They would decorate their lockers with pictures, posters, dolls, puppets, mirrors and almost any kind of object that they found interesting. Most students were content to use their locker, others lived in their locker.

Enjoying life by their lockers. **Rachel Sova, Jessica Vandegrift** and **Holly Yanacek** have decorated their lockers and have a good time entertaining others at their lockers.

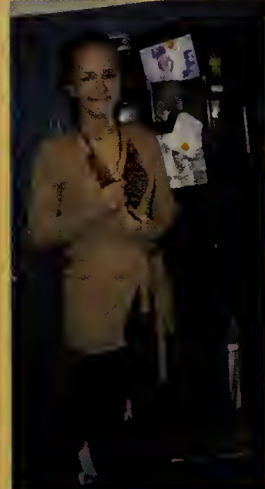

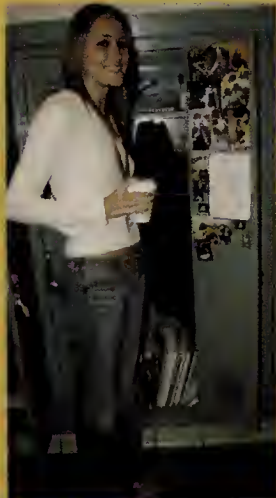

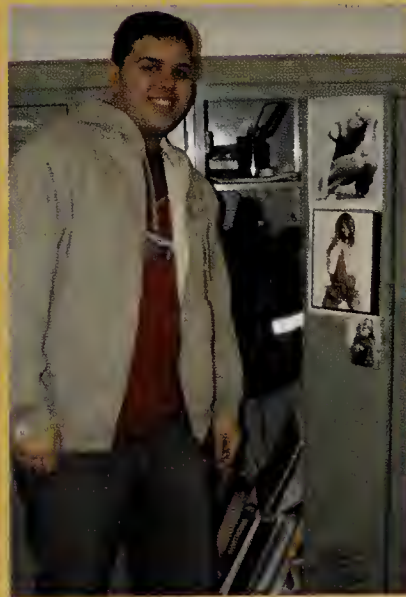

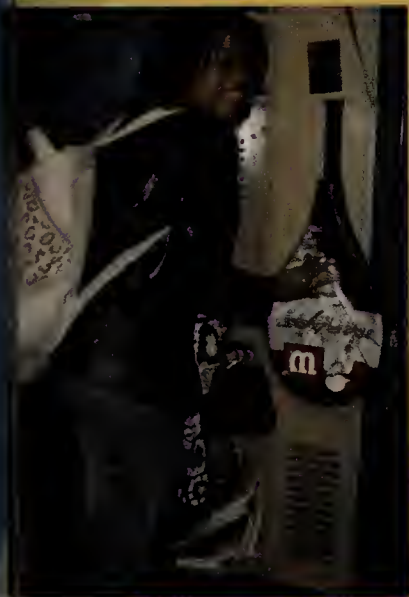

Stephanie Maxwell, Jessica Marino, Alecia Jones, Cassie Hilston, Jackie Janda, Vince Marvin and Emily Proctor are just some of the students at Euclid High Schools who had the spirit to decorate their lockers with memorabilia from their lives.

Porscha Williams, Sarah Candela, Dana Harris, Brianna Watts, Alexandria Perdan, Martina Chatman-Martin, and Kevin Kope were all pleased with the decorations they had in their lockers.

KEEPING THE FAITH

CRUX gives students an opportunity to participate in Christian belief

SEE YOU AT THE POLE

MAKING A MOVIE

Film Club gives students an opportunity to express creative talents

Did

you ever want to be in movies? Did you ever want to make a movie? If you answered yes to either of these questions then Film Club was for you. The students wrote scripts and had friends act out the parts so they could be videotaped and edited into a movie. They used computers to make the special effects that went along with the production. In the spring they presented a Film Show in which the movies were presented to all the students in the school. The club was advised by Mrs. Marketa President.

Sierra Williams and Jennifer Weber work hard to make the Film Club successful.

STRATEGIC GAME

Anderson and Oscar Black spend a lot of time after school playing chess.

Were

you interested in learning to play or playing chess? If so, then, the Chess Club was a good place to learn. The members learned the strategies of the game and had an opportunity to play with other students after school. Mr. Barry Mita was the adviser for the group.

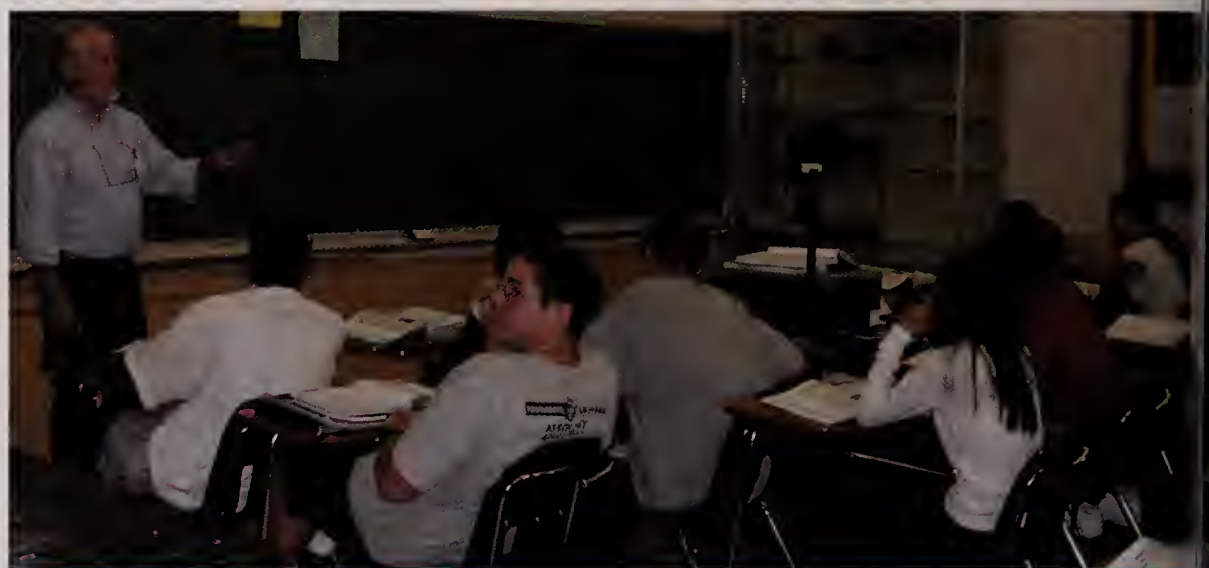

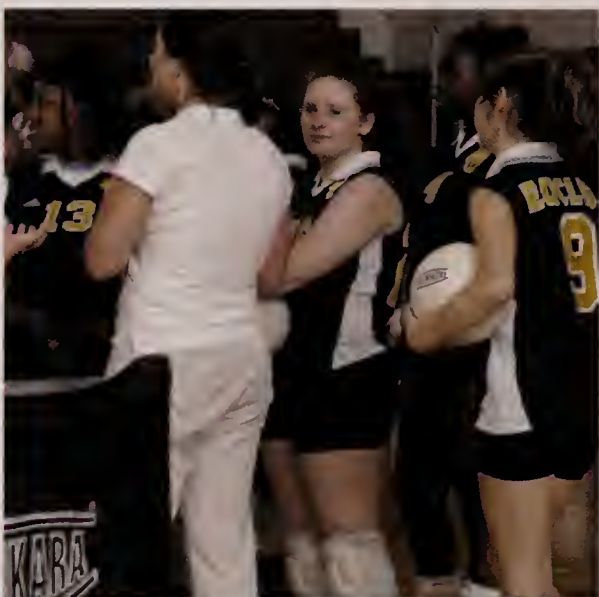

The students have to plan ahead if they are going to be good at the game of chess.

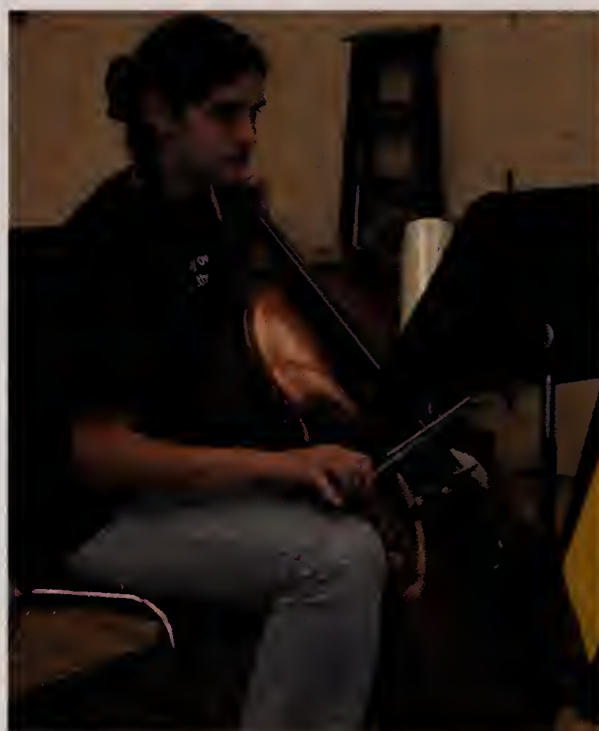

ACADEMICS DIVIDER

The new school year saw a large change as far as academics was concerned. The transformation of the one school into six smaller schools meant that the professional staff had to be reorganized into new sections. The building was rearranged into sections for each school. This meant that many rooms had to be changed from classrooms to offices or vice versa. Much of the summer of 2004 was spent with the new construction. The staff bid into the school that they were interested in. Because of that, staff members found themselves joined up with new staff. The rearrangement of staff and students and classes led to many scheduling problems with many students not able to take the classes they wanted. There were many problems that had to be solved throughout the year. The transformation was an ongoing process.

STAIRWAY TO SUCCESS

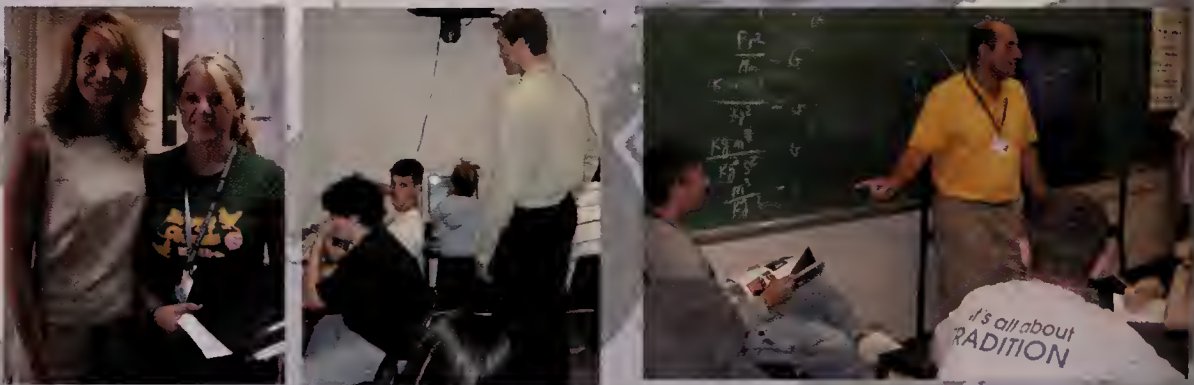

Euclid's staff helped students to prepare themselves for lifetime learning

The 2004-2005 school saw the first implementation of the small schools initiative with the building being broken into six smaller units. There was a rearrangement of classrooms and the staff had different assignments from what they had in the past and there were many new staff present because of retirements and staff relocation due to the opening of previously closed schools. But through all the activity there was still one main goal that was manifested and that was the staff that was dedicated to the education of the students. There was much student-teacher interaction that went on with the goal being education of the students. Students were able to participate in a full range of athletic teams and many extracurricular activities that took place during and after school. If students wanted to get an education, the Euclid schools provided them with as good an opportunity as any system in the state of Ohio

UNDERCLASS DIVIDER

The small school transformation was really felt in some by some of the underclassmen. The juniors had more freedom and were allowed to cross over between schools in order to take classes that they needed or wanted. The freshmen and sophomores, however, had to remain in their small schools. The idea was to create a sensation of belonging with a certain group of students in a particular part of the school. Problems arose, however, when many students could not take classes that they wanted since they were already filled or were not offered in their school. This led to situations where a student sat in study hall not taking a class that he or she needed because they could not cross over to a school where it was being offered. Despite the problems, underclassmen still did their work and attended their classes and worked their way up toward becoming a senior.

BREAKING UP LEADS TO A NEW BEGINNING

Implementatin of small schools initiative leads to stronger ties to the school

The Fall of 2004 saw the largest reorganization of Euclid High School since it was built fifty five years ago. Rooms were altered and classes shifted so that instead of having the school arranged by departments, it was arranged by six individual schools. The schools chose names such as the Academy of Intellectual & Interpersonal Development, Business & Communications, Euclid Academy of the Arts, The International Academy For Accelerated Achievement, the School of Science, Technology, Engineering and Math and The Professional Path. Each school had its unique part of the building for all of its' classes with the exception of lunch, gym and science classes which were located where they always were. The underclass students were impacted by the change more than the seniors with the freshmen being impacted the most. The juniors were able to 'crossover' to other schools to take the classes that they wanted but the sophomores and freshmen had to remain in their own schools and could not 'crossover' to another school to take a course that they needed or wanted. The idea behind the small schools was that students in a small school would get to know each other better and develop friendships within the school and a sense of pride would develop between all the students. There was still a lot of work that had to be done and a lot of changes were going to occur before everything was running smoothly.

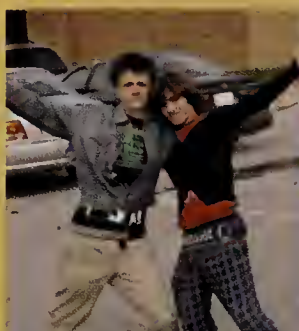

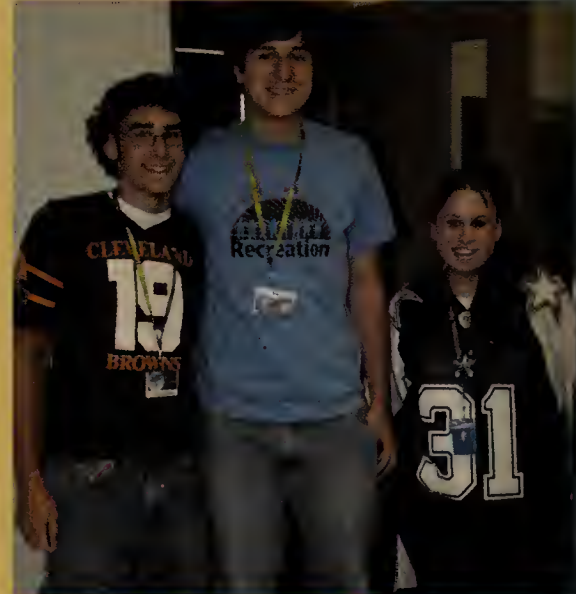

Jason Mitchell, Jazmine Bell and Alecia Jones are gathering data during an experiment in their chemistry class. More students may be taking chemistry since the six level classes have been eliminated and there is only the four level, college preparatory, level offered beneath the honors.

LIBERAL EDUCATION

Academy of Intellectual and Interpersonal Development wants everyone to succeed

The Academy of Intellectual and Interpersonal Development was led by Mr. William Bayliss and focused on general studies and a liberal arts education. Their motto was "Success is our Standard" and they emphasized a rigorous curriculum where all students would succeed. The school only offered college preparatory, honors and AP classes with the idea that all students would remain on track. A student entering with less than a 2.0 GPA was required to enter a two-week remediation workshop. The only grades in the school were A's, B's, C's, and F's. By not giving D's all the students were forced to have a true mastery of their subjects. The school was focused on conflict resolution through mediation and hosted the school mediation program.

LEARNING ABOUT BUSINESS

Business and Communication school prepares students for the business world

Jazmine Bell contemplates all the interesting things that she will be able to do in college if she plays up to her potential.

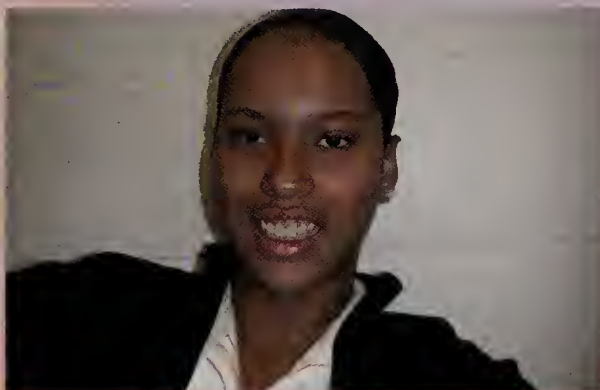

The

Business and
Communication
School (BCS)

was headed by Mr. Jim Poulson and focused the students towards the business sector of education. They teamed up with local businesses and community groups to get the students experience with the business community. They provided a link between college preparatory courses and business skills. The school provided seminars and internships for the students to become familiar with the business world. Seniors were to have a "senior capstone experience" to help continue their education after high school. Students helped develop their Electronic Student Portfolio to document their progress throughout high school. The student's family was included in the development of each student's Individual Learning Plan.

David Yerman and Edward Chinok knew that it was their business to wear hats for Hat Day during Homecoming Week.

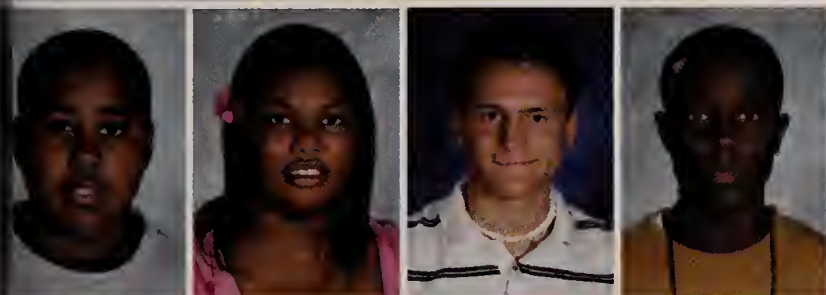

Sirena Hardimon looks forward with optimism.

ART AND CREATIVITY

Euclid Academy of the Arts nourishes creativity

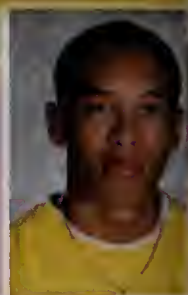

The

Euclid Academy of the Arts was headed by Mrs. Tina Elliott and had the idea that academic and artistic education went together. The students developed their abilities in the visual and performing arts by using observation, knowledge and experience to discover new skills and concepts. The school partnered with the Shore Cultural Center to develop stronger ties with the community. The school was also associated with the film and poetry slams, the Comedy Club, the artwork exhibitions, and the vocal and instrumental music groups.

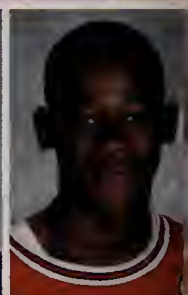

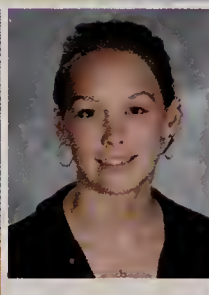

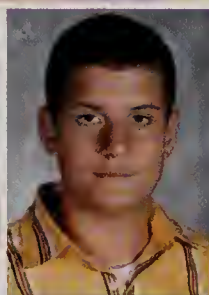

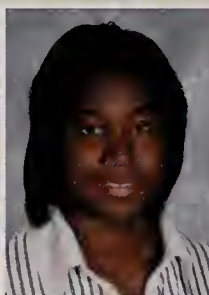

Euclid chorale groups got together to produce *Broadway Today* to raise money for Big Show 2005.

GOING GLOBAL

International Academy focuses on international studies

"Smile for the picture". Emily Lawrence gets ready to take a picture while Maggie Carney and Susan Hogue watch to see how it will turn out. With the popularity of digital cameras Emily's picture can be down loaded to the internet and be all over the world in just a few moments.

The

International Academy of Accelerated Achievement lived with the idea "From here...anywhere." Headed by Mrs. Claudia Spencer, the school focused on global studies and the idea that everyone was a part of the global community and events occurring in other countries influenced what went on here. The school offered lectures by international speakers through John Carroll's Center for Global Education. It was the host school for Euclid's NJROTC program.

Being

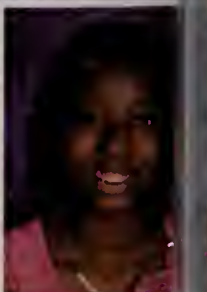

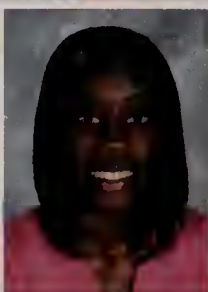

a member of the junior class was a big opportunity to make a mature leap from that of being a freshmen or sophomore to that of being a senior. Juniors knew the school much better than underclassmen and so had more responsibility. Juniors acted more mature than the lower grades and helped out more throughout the school. The staff accepted the increased maturity level of the juniors and relied on them more for help. After all, they only had one more year until they were seniors.

IN PURSUIT OF REASONING

The school of Science, Technology, Engineering and Math was headed by Mr. Ron Seymour and had the students using the latest technology to help their education. GETTING REAL EXPERIENCE

The Professional Path introduces students to the real world

John Polter and Joe Humenuik work hard to succeed in everything they do.

If you were interested in a professional career the Professional Path school could be for you. Headed by Mr. Elie Thomas the idea of the school was to provide "Real Experience for the Real World". After graduation, students could either enter college or go into the business world. Academics were carried outside the classroom with internships, job shadowing and community service. The Vocational Automotive, Industrial Technology and Vocational Law Enforcement programs were located in this school.

MEMORIES DIVIDER

The end of the year as far as the yearbook was concerned occurred at the beginning of March 2004 when the last deadline had to be mailed to Jostens Printing and Publishing Company. Because of that everything that occurred in the Spring of the year could not be included in the 2004 *Euclidian*. Because of that the events that occurred in the Spring of 2004 are covered in this section of the 2005 *Euclidian*. Many exciting events made up the Spring of 2004 which was rather cool and wet for the end of the school year.

COMING OUT EVEN

Baseball finishes a .500 season

The 2004 baseball season was full of ups and downs. The players began early conditioning and over 50 players showed up for tryouts and 20 made the freshmen team, 14 played JV and 18 made Varsity with 5 moving up and down between Varsity and JV. The team was young with only six seniors on the varsity. The pitching relied strongly on **Jim Palko, Mike Ross, Roger Prettyman** and **Trevor Potulsk** with occasional starts, relief jobs and save opportunities given to **Chris Kinison, Joe Fisher, Nick Mavar** and **Ben Perpar**. The defense was very good with many diving catches, double plays, pick-offs and very few errors. The hitting and base running was also strong although there were no pure power hitters. The team relied on speed and brain power to advance the runners across the plate.

CAN YOU SAY "CO-CHAMPS?"

Panthers finish season with best record for fast-pitch softball

For once Euclid Girls' Softball was a team to be scared of. The varsity had a team full of skill, with a very talented player or players at each position on the field. The coaches had some tough decisions to make before the season began. Those decisions made a winning team for the first time since Euclid turned to fast pitch. Euclid had a very good record (10-6) and tied for L.E.L. co-champs. They played Mentor to finish the season, losing by only one. Overall, girls' softball had some skill and used it to come away with a winning season.

LIFE IN A SMALL TOWN

Spring Play explored life in OUR TOWN

Spring

Play 2004 was performed in the Little Theater on May 13, 14 and 15. Our Town was written by Thornton Wilder and was about the lives of the inhabitants of a small town in America many decades ago. It showed the lives of several young people, their activities, how they matured through the years, got married, had children and eventually died. It showed how many lives were intertwined to produce a complex web. The play was directed by Ms. Trisha Tinney and gave the performers a chance to show their skills on the stage. It was a learning experience for everyone.

CLOSING

Colophon

Jostens Print- ing and Publish- ing Division at State College, Pennsylv- ania printed 400 copies of the 2005 *Eu- lidian*. The pages were printed on Gloss 191 paper stock and was in full color. All pages were created using Adobe InDesign 2.0 running on a Macintosh G4 computer. The operating system was OS X 10.3. The G4 had 1 GB of RAM and a 120 GB hard drive and all files were backed up onto a pair of fire wire drives connected to the G4. A 21" color, two page monitor working with a 17" flat screen monitor made page layouts much easier. An iBook lap top computer was also used to take data back and forth between school and home. All of the pictures in the yearbook were digital. Most were taken with a Nikon D100 SLR digital camera with others being taken with either a Nikon Coolpix 990 or Coolpix 995 digital cam- era. Any picture submitted on film was scanned and placed digitally. Many pic- tures were taken with student's cameras and submitted digitally. The images were processed with Adobe Photoshop 7.0. Microsoft Excel was used to make charts and keep databases for the students. The index was produced using Jostens Last Name First program. Copy was printed out on either a Hewlett Packard 970Cse ink jet or HP 4050N Laser printer or Xerox Phaser 8400 Color Laser printer. All the pages were sent to Jostens on CD ROMs since floppy disks can't hold enough information. The cover was de- signed by the **Jostens Art Department**. Pages were submitted to the plant on five deadlines; November 29, December 27, January 17, February 7, and Febru- ary 21. Since the final deadline was in late February nothing that occurred after that time could be included in the book. Because the book was all color the pages were submitted in multiples consisting of eight pages. The picture patron option was again very popular with sixty eight

students having their pictures included on ten pages. Also a high percentage of the students ordered their yearbook with their name imprinted on the cover for easy

Thank You The

staff of the 2005 *Euclidian* would like to extend thanks to all who helped to make this book possible. First and foremost, thanks have to go to the adviser, Mr. **Bill Von Benken** for the many long hours of hard work and plan- ning that had to be put in to get the entire operation going and to keep it going. Others to be thanked are: **Ohio School Pictures, Inc.**, for taking the team pic- tures and the senior and underclass and staff pictures. **Jostens Yearbook Com- pany** for putting it all together in such an artistic manner, Mrs. **Marsha Knauss** for all the time and work she did trying to get the senior and underclass pictures taken and chosen, and all the writers and photographers who contributed their time, and last but not least, the entire stu- dent body at Euclid High School without which the book could not exist.

Staff

Many people helped in some way with the 2004 *Euclidian*. Some wrote stories while others worked on the laying out of the book. **Jackie Janda**, **Rachel Slocum** and **Melissa Paoloni** did a lot of work with creating the collage. **Jasmine Gaulden** and **Holly Yanacek** did a lot of story writing and helped with laying out the pages. Other students who helped in various ways were **Effie Stanbery**, **John Haynes**, and **Amalia Boris**.

Disclaimer The

2004-2005 school year is history. Many inter- esting and significant events occurred during that time and the *Euclidian* tried to cover as many of them as possible. This was difficult due to the limited staff. If we missed something, we are sorry. We sincerely apologize for any errors or omissions that occurred in the book but this is a single printing of a high school yearbook and errors will occur.

Dana Mc Gill Swim- ming her best. Lots of action under the basketball hoop. The cheerleaders got lots of air in their jumps. **JaRon King** was the panther for the basket- ball games and often wore a wig to confuse people.

**Come on over to Utopia Designs, where everyone
is treated like a celebrity.**
